SOLADIGM OFFERS TWO COLLEGE SCHOLARSHIPS FOR MISSISSIPPI HIGH SCHOOL SENIORS

Company Now Accepting 2011 Scholarship Applications from DeSoto County Students; Program Designed to Foster New Engineers and Scientists

Milpitas, Calif. and Olive Branch, Miss.—February 24, 2011—[Soladigm](#), a developer of highly energy-efficient [Dynamic Glass](#) for next-generation buildings with commercial manufacturing facilities in Mississippi, today announced the launch of the [Soladigm College Scholarship](#) as well as a call for 2011 submissions from DeSoto County high school seniors.

The Soladigm College Scholarship, which will award two full-tuition college scholarships to Olive Branch and DeSoto County high school seniors annually, was created to support the development and education of the state's next generation of engineers and scientists. To be considered, students from the region must be in good academic standing and planning to pursue a degree in physical science or engineering at any four-year Mississippi college or university.

“DeSoto County is extremely proud to have a partner like Soladigm that contributes to the community's economic development and believes in investing in the local people,” said Jim Flanagan, president and CEO of the DeSoto County Economic Development Council. “By providing these generous scholarships and building its manufacturing facility in Olive Branch, Soladigm is helping shape the community into a hub for cleantech manufacturing jobs.”

Each Soladigm scholarship pays 100 percent of the winning student's college tuition expense for four years. One scholarship will be awarded to an Olive Branch, Miss. student, and the other to a DeSoto County student.

“Advancements in technology continue to play a vital role in improving the health and well-being of humankind and the planet. At Soladigm, our engineers and scientists are doing their part by enabling major breakthroughs in Dynamic Glass technology,” said Dr. Rao Mulpuri, CEO of Soladigm. “Through these scholarships, we wish to play a positive role in preparing future generations of students for a career in Science and Technology.”

Students interested in applying for Soladigm’s 2011 scholarships may visit www.soladigm.com/scholarship/application.doc for details. Completed applications, which require a written essay and letters of recommendation, must be received via email or postmarked by Thursday, March 31, 2011. Scholarship winners will be announced in May 2011.

About Soladigm

Soladigm is a developer of next-generation green building solutions designed to improve energy efficiency. The company’s highly energy-efficient Dynamic Glass switches from clear to tinted on demand, resulting in significant cost savings, environmental benefits, and quality of life enhancements. Soladigm is headquartered in Milpitas, California. For more information, visit www.soladigm.com.
